ETFMG Alternative Harvest ETF

Dear Shareholder,

On behalf of the entire team, we want to express our appreciation for the confidence you have placed in the ETFMG Alternative Harvest ETF Exchange-Traded Fund ("MJ" or the "Fund"). The following information pertains to the fiscal period from October 1, 2017 to March 31, 2018.

The Fund seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the Prime Alternative Harvest Index (the "Index"). On December 26, 2017, **the Fund's investment objective and principal investment strategy were substantially revised.** The performance and average annual total returns shown for periods prior to December 26, 2017 is likely to have differed had the Fund's current investment strategy been in effect during those periods. Over the 6-month period the Fund NAV decreased -2.80%, which reflects the cumulative result of performance of the Fund under two different investment strategies for that period.

HISTORICAL PERFORMANCE FOR THE ETFMG ALTERNATIVE HARVEST ETF				
	6 Month	Cumulative Since Inception	1 Year	Annualized Since Inception
Market	-4.32	41.90	6.36	16.22
NAV	-2.80	43.30	7.38	16.71

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. All performance is historical and includes reinvestment of dividends and capital gains. Performance data current to the most recent month end may be obtained by calling 1-844-ETF-MGRS (1-844-383-6477).

You can find further details about MJ by visiting www.etfmj.com, or by calling 1-844-ETF-MGRS (1-844-383-6477).

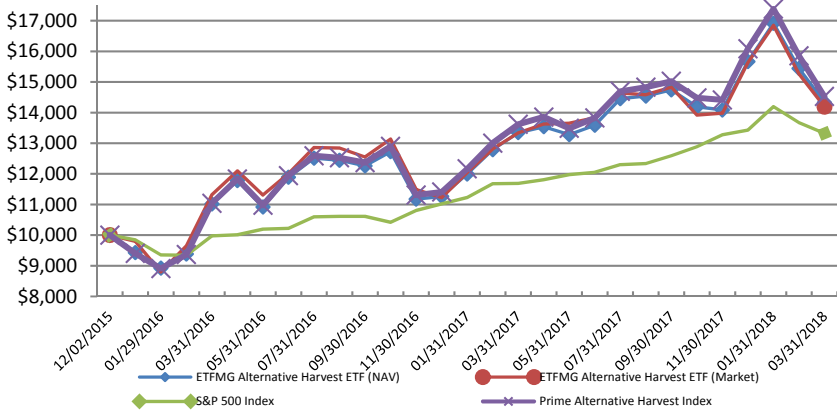

Sincerely,

Samuel Masucci III
Chairman of the Board

1. Not annualized.

2. The Fund's investment objective changed on December 26, 2017. Performance of the Fund prior to December 26, 2017 was based on an entirely different index.

3. The return reflects the actual performance through March 29, 2018 (the last day of the New York Stock Exchange was open) to maintain consistency with the Fund's net asset value calculations used for shareholder transactions.

4. The expense ratio is taken from the Fund's most recent prospectus dated January 31, 2018.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. All performance is historical and includes reinvestment of dividends and capital gains. Performance data current to the most recent month end may be obtained by calling 1-844-ETF-MGRS (1-844-383-6477).

The chart illustrates the performance of a hypothetical \$10,000 investment made on December 3, 2015, and is not intended to imply any future performance. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions from the sale of Fund shares. The chart assumes reinvestment of capital gains and dividends, if any. The unmanaged indices do not reflect fees and are not available for direct investment.

Important Disclosures and Key Risk Factors

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Narrowly focused investments typically exhibit higher volatility.

The possession and use of marijuana, even for medical purposes, is illegal under federal and certain states' laws, which may negatively impact the value of the Fund's investments. Use of marijuana is regulated by both the federal government and state governments, and state and federal laws regarding marijuana often conflict. Even in those states in which the use of marijuana has been legalized, its possession and use remains a violation of federal law. Federal law criminalizing the use of marijuana pre-empts state laws that legalizes its use for medicinal and recreational purposes. Cannabis companies and pharmaceutical companies may never be able to legally produce and sell products in the United States or other national or local jurisdictions.

The Fund's investments will be concentrated in an industry or group of industries to the extent that the Index is so concentrated. In such event, the value of the Fund's shares may rise and fall more than the value of shares of a fund that invests in securities of companies in a broader range of industries.

The consumer staples sector may be affected by the permissibility of using various product components and production methods, marketing campaigns and other factors affecting consumer demand. Tobacco companies, in particular, may be adversely affected by new laws, regulations and litigation. The consumer staples sector may also be adversely affected by changes or trends in commodity prices, which may be influenced or characterized by unpredictable factors.

ETF shares are not individually redeemable and owners of the shares may acquire those shares from the Fund and tender those shares for redemption to the Fund in Creation Units only, typically consisting of aggregations of 50,000 shares.

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 (Unaudited)

NOTE 1 – ORGANIZATION

ETFMG Alternative Harvest ETF (the “Fund”) is a series of ETF Managers Trust (the “Trust”), an open-end management investment company consisting of multiple investment series, organized as a Delaware statutory trust on July 1, 2009. The Trust is registered with the SEC under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company and the offering of the Fund’s shares (“Shares”) is registered under the Securities Act of 1933, as amended (the “Securities Act”). The Fund seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the Prime Alternative Harvest Index (the “Index”). The Fund commenced operations on December 2, 2015 as the Tierra XP Latin America Real Estate ETF. Effective December 26, 2017, the Board of Trustees of the Trust approved the following changes to the Fund: a) The Fund’s name was changed to the ETFMG Alternative Harvest ETF b) the Fund’s former underlying index, the Solactive Latin America Real Estate Index, was replaced with the Prime Alternative Harvest Index; c) The Fund’s investment objective was changed to the following: “The ETFMG Alternative Harvest ETF seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the Prime Alternative Harvest Index” (the “New Index”); and d) the non-fundamental policy that, under normal circumstances, the Fund will not invest less than 80% of its net assets, plus the amount of any borrowings for investment purposes, in securities of real estate related companies in Latin America will be eliminated.

The Fund currently offers one class of shares, which has no front end sales load, no deferred sales charges, and no redemption fees. The Fund may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Fund have equal rights and privileges.

Shares of the Fund are listed and traded on the NYSE Arca, Inc. Market prices for the Shares may be different from their net asset value (“NAV”). The Fund issues and redeems Shares on a continuous basis at NAV only in blocks of 50,000 shares, called “Creation Units.” Creation Units are issued and redeemed principally in-kind for securities included in the Index. Once created, Shares generally trade in the secondary market at market prices that change throughout the day in quantities less than a Creation Unit. Except when aggregated in Creation Units, Shares are not redeemable securities of the Fund. Shares of the Fund may only be purchased or redeemed by certain financial institutions (“Authorized Participants”). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the Shares directly from the Fund. Rather, most retail investors may purchase Shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

Authorized Participants transacting in Creation Units for cash may pay an additional variable charge to compensate the relevant Fund for certain transaction costs (i.e., brokerage costs) and market impact expenses relating to investing in portfolio securities. Such variable charges, are included in “Transaction Fees” in the Statement of Changes in Net Assets.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund. These policies are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 (Unaudited) (Continued)

The Fund follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standard Codification *Topic 946 Financial Services – Investment Companies*.

The Fund may invest in certain other investment companies (underlying funds). For specific investments in underlying funds, please refer to the complete schedule of portfolio holdings on Form N-CSR(S) for this reporting period, which is filed with the U.S. Securities and Exchange Commission (SEC). For more information about the underlying Fund's operations and policies, please refer to those Funds' semiannual and annual reports, which are filed with the SEC.

A. *Security Valuation.* Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 pm Eastern Time if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used.

Securities for which quotations are not readily available are valued at their respective fair values as determined in good faith by the Board of Trustees (the "Board"). When a security is "fair valued," consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the pricing procedures adopted by the Fund's Board. The use of fair value pricing by the Fund may cause the net asset value of its shares to differ significantly from the net asset value that would be calculated without regard to such considerations. As of March 31, 2018, the Fund held one fair value security. More detail on this security can be found in the Schedule of Investments.

As described above, the Fund utilizes various methods to measure the fair value of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table presents a summary of the Funds' assets measured at fair value as of March 31, 2018:

ETFMG Alternative Harvest ETF⁺

<u>Assets[^]</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

+ On March 30, 2018, US and certain other financial markets were closed, while some foreign markets were open. The Fund was re-priced for financial reporting purposes to reflect in the valuation, the transactions related to open foreign market activities called at the official closing price on the primary market of exchange on which the securities trade.

[^] See Schedule of Investments for classifications by country and industry.

(1) Includes a security valued at \$0.

The ETFMG Alternative Harvest ETF held a Level 3 security at the end of the period. The security classified as Level 3 is deemed immaterial. This security transferred from Level 1 to Level 3 due to being previously priced in an active market. There were no transfers into or out of Level 2 during the six months ended March 31, 2018. Transfers between levels are recognized at the end of the reporting period.

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Schedule of Investments.

B. *Federal Income Taxes.* The Fund has elected to be taxed as a “regulated investment company” and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provisions for federal income taxes or excise taxes have been made.

To avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare each year as dividends, in each calendar year, at least 98.0% of its net investment income (earned during the calendar year) and 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years.

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 (Unaudited) (Continued)

Net capital losses incurred after October 31, within the taxable year are deemed to arise on the first business day of the Fund's next taxable year.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. The Fund has analyzed its tax position and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions expected to be taken in the Fund's 2017 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal, the State of New Jersey, and the State of Delaware; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Management has reviewed the tax positions for open periods (for federal purposes, three years from the date of filing and for state purposes, four years from the date of filing) as applicable to the Fund, and has determined that no provision for income tax is required in the Fund's financial statements.

- C. *Security Transactions and Investment Income.* Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the life of the respective securities using the effective interest method. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Income, including gains, from investments in foreign securities received by the Fund may be subject to income, withholding or other taxes imposed by foreign countries.
- D. *Foreign Currency Translations and Transactions.* The Fund may engage in foreign currency transactions. Foreign currency transactions are translated into U.S. dollars on the following basis: (i) market value of investment securities, assets and liabilities at the daily rates of exchange, and (ii) purchases and sales of investment securities, dividend and interest income and certain expenses at the rates of exchange prevailing on the respective dates of such transactions. For financial reporting purposes, the Fund does not isolate changes in the exchange rate of investment securities from the fluctuations arising from changes in the market prices of securities for unrealized gains and losses. However, for federal income tax purposes, the Fund does isolate and treat as ordinary income the effect of changes in foreign exchange rates on realized gains or losses from the sale of investment securities and payables and receivables arising from trade-date and settlement-date differences.
- E. *Distributions to Shareholders.* Distributions to shareholders from net investment income are declared and paid by the Fund on a quarterly basis. Distributions to Shareholders from net realized gains on securities of the Fund normally are declared and paid on an annual basis. Distributions are recorded on the ex-dividend date.
- F. *Use of Estimates.* The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 (Unaudited) (Continued)

- G. *Share Valuation.* The net asset value (“NAV”) per share of the Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash and other assets, minus all liabilities (including estimated accrued expenses) by the total number of shares outstanding of the Fund, rounded to the nearest cent. The Fund’s shares will not be priced on the days on which the NYSE is closed for trading. The offering and redemption price per share for the Fund is equal to the Fund’s net asset value per share.
- H. *Guarantees and Indemnifications.* In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

NOTE 3 – RISK FACTORS

Investing in the ETFMG Alternative Harvest ETF may involve certain risks, as discussed in the Fund’s prospectus, including, but not limited to, those described below. Any of these risks could cause an investor to lose money.

Non-U.S. Regulatory Risks of the Marijuana Industry. The companies in which the Fund invests are subject to various laws, regulations and guidelines relating to the manufacture, management, transportation, storage and disposal of marijuana, as well as being subject to laws and regulations relating to health and safety, the conduct of operations and the protection of the environment. Even if a company’s operations are permitted under current law, they may not be permitted in the future, in which case such company may not be in a position to carry on its operations in its current locations. Additionally, controlled substance legislation differs between countries and legislation in certain countries may restrict or limit the ability of certain companies in which the Fund invests to sell their products.

Operational Risks of the Marijuana Industry. Companies involved in the marijuana industry face intense competition, may have limited access to the services of banks, may have substantial burdens on company resources due to litigation, complaints or enforcement actions, and are heavily dependent on receiving necessary permits and authorizations to engage in medical marijuana research or to otherwise cultivate, possess or distribute marijuana. Since the use of marijuana is illegal under United States federal law, federally regulated banking institutions may be unwilling to make financial services available to growers and sellers of marijuana.

Concentration Risk. The Fund’s investments will be concentrated in an industry or group of industries to the extent that the Index is so concentrated. In such event, the value of the Fund’s shares may rise and fall more than the value of shares of a fund that invests in securities of companies in a broader range of industries.

Consumer Staples Sector Risk. The consumer staples sector may be affected by the permissibility of using various product components and production methods, marketing campaigns and other factors affecting consumer demand. Tobacco companies, in particular, may be adversely affected by new laws, regulations and litigation. The consumer staples sector may also be adversely affected by changes or trends in commodity prices, which may be influenced or characterized by unpredictable factors.

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 (Unaudited) (Continued)

Equity Market Risk. The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, or sectors in which the Fund invests such as political, market and economic developments, as well as events that impact specific issuers.

New Fund Risk. There can be no assurance that the Fund will grow to or maintain an economically viable size.

Non-Diversification Risk. Because the Fund is "non-diversified," it may invest a greater percentage of its assets in the securities of a single issuer or a small number of issuers than if it was a diversified fund. As a result, a decline in the value of an investment in a single issuer or a small number of issuers could cause the Fund's overall value to decline to a greater degree than if the Fund held a more diversified portfolio. This may increase the Fund's volatility and have a greater impact on the Fund's performance.

NOTE 4 – COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS.

ETF Managers Group, LLC (the "Advisor"), serves as the investment advisor to the Fund. Pursuant to an Investment Advisory Agreement ("Advisory Agreement") between the Trust, on behalf of the Fund, and the Advisor, the Advisor provides investment advice to the Fund and oversees the day-to-day operations of the Fund, subject to the direction and control of the Board and the officers of the Trust. Under the Advisory Agreement, the Advisor is also responsible for arranging transfer agency, custody, fund administration and accounting, and other non-distribution related services necessary for the Fund to operate.

Under the Investment Advisory Agreement with the Fund, the Advisor has overall responsibility for the general management and administration of the Fund and arranges for sub-advisory, transfer agency, custody, fund administration, securities lending, and all other non-distribution related services necessary for the Fund to operate. The Advisor bears the costs of all advisory and non-advisory services required to operate the Fund, in exchange for a single unitary fee. For services provided the Fund pays the Advisor at an annual rate of 0.75% of the Fund's average daily net assets. The Advisor has an agreement with, and is dependent on, a third party to pay the Fund's expenses in excess of 0.75% of the Fund's average daily net assets. Additionally, under the Investment Advisory Agreement, the Advisor has agreed to pay all expenses of the Fund, except for: the fee paid to the Advisor pursuant to the Investment Advisory Agreement, interest charges on any borrowings, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution (12b-1) fees and expenses (collectively, "Excluded Expenses"). From the period October 1, 2017 to December 25, 2017, the Fund's Sponsor was Tierra Funds, LLC. Tierra Funds, LLC agreed to sublicense the use of the Underlying Index to the Advisor. Effective December 26, 2017, the Advisor has entered into an Agreement with ETFMG Financial, LLC (the "Sponsor"). The Sponsor provides marketing support for the Fund, including distributing marketing materials related to the Fund.

U.S. Bancorp Fund Services, LLC (the "Administrator") provides fund accounting, fund administration, and transfer agency services to the Fund. The Advisor compensates the Administrator for these services under an administration agreement between the two parties.

The Advisor pays each independent Trustee a quarterly fee for service to the Fund. Each Trustee is also reimbursed by the Advisor for all reasonable out-of-pocket expenses incurred in connection with his duties as Trustee, including travel and related expenses incurred in attending Board meetings.

NOTE 5 – DISTRIBUTION PLAN

The Fund has adopted a Plan of Distribution pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Fund may pay compensation to the Distributor or any other distributor or financial institution with which the Trust has an agreement with respect to the Fund, with the amount of such compensation not to exceed an annual rate of 0.25% of each Fund's average daily net assets. For the six months ended March 31, 2018, the Fund did not incur any 12b-1 expenses.

NOTE 6 - PURCHASES AND SALES OF SECURITIES

The costs of purchases and sales of securities, excluding short-term securities and in-kind transactions, six months ended March 31, 2018:

	<u>Purchases</u>	<u>Sales</u>
ETFMG Alternative Harvest ETF	\$159,823,254	\$164,853,016

The costs of purchases and sales of in-kind transactions associated with creations and redemptions for the six months ended March 31, 2018:

	<u>Purchases</u>	
	<u>In-Kind</u>	<u>Sales In-Kind</u>
ETFMG Alternative Harvest ETF	\$440,383,639	\$6,484,340

Purchases in-kind are the aggregate of all in-kind purchases and sales in-kind are the aggregate of all proceeds from in-kind sales. Net capital gains or losses resulting from in-kind redemptions are excluded from the determination of the Fund's taxable gains and are not distributed to shareholders.

There were no purchases or sales of U.S. Government obligations for the six months ended March 31, 2018.

NOTE 7 — SECURITIES LENDING

The Fund may lend up to 33 1/3% of the value of the securities in its portfolio to brokers, dealers and financial institutions (but not individuals) under terms of participation in a securities lending program administered by U.S. Bank N.A. ("the Custodian"). The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least 102% of the value of any loaned securities at the time of the loan, plus accrued interest. The Fund receives compensation in the form of fees and earn interest on the cash collateral. The amount of fees depends on a number of factors including the type of security and length of the loan. The Fund continues to receive interest payments or dividends on the securities loaned during the borrowing period. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Fund. The Fund has the right under the terms of the securities lending agreement to recall the securities from the borrower on demand. The cash collateral is invested by the Custodian in accordance with approved investment guidelines. Those guidelines require the cash collateral to be invested in readily marketable, high quality, short-term obligations; however, such investments are subject to risk of payment delays or default on the part of the issuer or counterparty or otherwise may not generate

sufficient interest to support the costs associated with securities lending. The Fund could also experience delays in recovering its securities and possible loss of income or value if the borrower fails to return the borrowed securities, although the Fund is indemnified from this risk by contract with the securities lending agent.

As of March 31, 2018, the value of the securities on loan and payable for collateral due to broker were as follows:

Value of Securities on Loan Collateral Received

<u>Fund</u>	<u>Values of Securities on Loan</u>	<u>Fund Collateral Received*</u>
ETFMG Alternative Harvest ETF	\$45,267,643	\$45,347,164

* The cash collateral received was invested in the Mount Vernon Securities Lending Prime Portfolio as shown on the Schedule of Investments, a money market fund with an overnight and continuous maturity.

Interest income earned on collateral investments (including applicable fees) and recognized by the Fund during the six months ended March 31, 2018, aggregated \$1,016,452.

NOTE 8 – FEDERAL INCOME TAXES

The components of distributable earnings (losses) and cost basis of investments for federal income tax purposes at September 30, 2017 were as follows:

	<u>Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>	
ETFMG Alternative Harvest ETF	\$ 5,811,821	\$ 930,946	\$ (387,897)	\$ 543,049

ETFMG Alternative Harvest ETF	\$ 112,470	\$ 35,323	\$ 147,793	\$ (3,499)	\$ 687,343

As of September 30, 2017, the Fund had accumulated capital loss carryovers of:

	<u>Capital Loss Carryover</u>	<u>Expires</u>
ETFMG Alternative Harvest ETF	None	Indefinite

Under current tax law, capital and currency losses realized after October 31 of a Fund's fiscal year may be deferred and treated as occurring on the first business day of the following fiscal year for tax purposes. The Fund had deferred post-October capital and currency losses, which will be treated as arising on the first business day of the year ended September 30, 2017.

In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

ETFMG Alternative Harvest ETF

APPROVAL OF ADVISORY AGREEMENT AND BOARD CONSIDERATIONS For the Period Ended March 31, 2018 (Unaudited)

Pursuant to Section 15(c) of the Investment Company Act of 1940 (the “1940 Act”), at a meeting held on March 28, 2018, the Board of Trustees (the “Board”) of ETF Managers Trust (the “Trust”) considered the renewal of the Investment Advisory Agreement (the “Advisory Agreement”) between ETF Managers Group LLC (the “Adviser”) and the Trust, on behalf of ETFMG Alternative Harvest ETF (the “Fund”).

Pursuant to Section 15(c) of the 1940 Act, the Board must annually review and approve the Advisory Agreement after its initial two-year term: (i) by the vote of the Trustees or by a vote of the shareholders of the Fund; and (ii) by the vote of a majority of the Trustees who are not parties to the Advisory Agreement or “interested persons” of any party thereto, as defined in the 1940 Act (the “Independent Trustees”), cast in person at a meeting called for the purpose of voting on such approval. Each year, the Board calls and holds a meeting to decide whether to renew the Advisory Agreement for an additional one-year term. In preparation for such meeting, the Board requests and reviews a wide variety of information from the Adviser.

In reaching its decision, the Board, including the Independent Trustees, considered all factors it believed relevant, including: (i) the nature, extent and quality of the services provided to the Fund’s shareholders by the Adviser; (ii) the investment performance of the Fund; (iii) the Adviser’s costs and profits realized in providing services to the Fund, including any fall-out benefits enjoyed by the Adviser; (iv) comparative fee and expense data for the Fund in relation to other similar investment companies; (v) the extent to which economies of scale would be realized as the Fund grows and whether the advisory fees for the Fund reflects these economies of scale for the benefit of the Fund; and (vi) other financial benefits to the Adviser and its affiliates resulting from services rendered to the Fund. The Board’s review included written and oral information furnished to the Board prior to and at the meeting held on March 28, 2018, and throughout the year. Among other things, the Adviser provided responses to a detailed series of questions, which included information about the Adviser’s operations, service offerings, personnel, compliance program and financial condition. The Board then discussed the written and oral information that it received before the meeting and throughout the year, and the Adviser’s oral presentations and any other information that the Board received at the meeting, and deliberated on the renewal of the Advisory Agreement in light of this information.

The Independent Trustees were assisted throughout the contract review process by independent legal counsel. The Independent Trustees relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating the renewal of the Advisory Agreement, and the weight to be given to each such factor. The conclusions reached with respect to the Advisory Agreement were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each Trustee may have placed varying emphasis on particular factors in reaching conclusions with respect to the Fund. The matters discussed were also considered separately by the Independent Trustees in executive session with independent legal counsel, at which no representatives of management were present.

Nature, Extent and Quality of Services Provided by the Adviser

The Trustees considered the scope of services provided under the Advisory Agreement, noting that the Adviser provides investment management services to the Fund. The Board discussed the responsibilities of the Adviser, including: responsibility for the general management of the day-to-day investment and reinvestment of the assets of the Fund; determining the daily baskets of deposit securities and cash components; executing portfolio security trades for purchases and redemptions of Fund shares conducted on a cash-in-lieu basis; responsibility for daily monitoring of tracking error and quarterly reporting to the Board; and implementation of Board directives as they relate to the Fund. In considering the nature, extent and quality of the services provided by the Adviser, the Board considered the qualifications, experience and responsibilities of the Adviser’s investment personnel,

ETFMG Alternative Harvest ETF

APPROVAL OF ADVISORY AGREEMENT AND BOARD CONSIDERATIONS For the Period Ended March 31, 2018 (Unaudited) (Continued)

the quality of the Adviser's compliance infrastructure, and the determination of the Trust's Chief Compliance Officer that the Adviser has appropriate compliance policies and procedures in place. The Board also considered the Adviser's experience managing exchange-traded funds ("ETFs").

The Board also considered other services provided to the Fund, such as overseeing the Fund's service providers, monitoring adherence to the Fund's investment restrictions, and monitoring compliance with various policies and procedures and with applicable securities laws.

Based on the factors above, as well as those discussed below, the Board concluded that it was satisfied with the nature, extent and quality of the services provided to the Fund by the Adviser.

Historical Performance

The Board then considered the past performance of the Fund. The Board reviewed information regarding the performance history of the Fund over various time periods, including the year-to-date period, the most recent one-year period and the period since the Fund's inception. The Board noted management's explanation that analysis of investment performance, in absolute terms, is less relevant for the Fund than it is for actively managed funds, given the Fund's index-based investment objectives. The Board also noted management's further explanation that it is more relevant to review the performance of the Fund by focusing on the extent to which the Fund tracked its underlying index. The Board reviewed information regarding the Fund's index tracking during the time it was managed by the Adviser, discussing, as applicable, factors which contributed to the Fund's tracking error over certain periods of time. The Board noted that the Fund converted to a new investment objective to track a substantially different underlying index, effective December 26, 2017, and the majority of the information of tracking error considered related to the prior underlying index. The Board noted that the Fund's performance was generally in line with that of its underlying index. The Board concluded that the Fund satisfactorily tracked its underlying index. The Board further noted that it had received and would continue to receive regular reports regarding the Fund's performance at its quarterly meetings.

Cost of Services Provided and Economies of Scale

The Board reviewed the advisory fee for the Fund and compared it to the total operating expenses of comparable ETFs, as determined by an independent third party. Among other information, the Board noted that the advisory fee for the Fund was higher than the average and median expense ratios for its comparable ETFs. The Board took into consideration management's discussion of the fees, including that the Fund has a niche investment strategy and limited comparable ETFs.

The Board also noted the importance of the fact that the advisory fee for the Fund is a "unified fee," meaning that the shareholders of the Fund pay no expenses other than the advisory fee and certain other costs such as interest, brokerage and extraordinary expenses and, to the extent it is implemented, fees pursuant to a Distribution and/or Shareholder Servicing (12b-1) Plan. The Board further noted that the Adviser was responsible for compensating the Trust's other service providers and paying the Fund's other expenses out of its own fees and resources. The Board also evaluated the compensation and benefits received by the Adviser from its relationship with the Fund, taking into account an analysis of the Adviser's profitability provided at the meeting. The Board concluded that the advisory fee for the Fund was reasonable in light of the factors considered.

In addition, the Board considered whether economies of scale may be realized for the Fund. The Board noted that the Adviser regularly considers whether fee reductions are appropriate as the Fund grows in size. The Board noted that a unitary fee provides a level of certainty in expenses for the Fund. The Trustees concluded that the flat advisory fee was reasonable.

**APPROVAL OF ADVISORY AGREEMENT AND BOARD CONSIDERATIONS
For the Period Ended March 31, 2018 (Unaudited) (Continued)**

Based on the Board's deliberations and its evaluation of the information described above, the Board, including the Independent Trustees, unanimously: (a) concluded that the terms of the Advisory Agreement are fair and reasonable; (b) concluded that the Adviser's fees are reasonable in light of the services that the Adviser provides to the Fund; and (c) approved the renewal of the Advisory Agreement for another year.

ETFMG Alternative Harvest ETF

EXPENSE EXAMPLE

Six Months Ended March 31, 2018 (Unaudited)

As a shareholder of ETFMG Alternative Harvest ETF (the "Fund") you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of Fund shares, and (2) ongoing costs, including unitary fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (October 1, 2017 to March 31, 2018).

Actual Expenses

The first line of the table provides information about actual account values based on actual returns and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then, multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table provides information about hypothetical account values based on a hypothetical return and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line of the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. If these transactional costs were included, your costs would have been higher.

Hypothetical (5% annual)	\$1,000.00	\$1,020.99	\$3.98

[^] The dollar amounts shown as expenses paid during the period are equal to the annualized six-month expense ratio multiplied by the average account value during the period, multiplied by 182/365 (to reflect the period from October 1, 2017 to March 31, 2018).

SUPPLEMENTARY INFORMATION
